Education

San Pablo Tucumán University — Tucumán, Argentina
Agro-industrial Management

Experience

Dialpad — Remote
Senior Software Engineer — Jul 2025 – October 2026

- Developed and maintained Dialpad's marketing website using Next.js, Apollo, GraphQL, Contentful, and Tailwind CSS.
- Designed, built, and maintained third-party integrations with platforms such as ServiceNow, athenahealth, Microsoft Dynamics, and HubSpot, leveraging Python, Vue.js, Pinia, and Google Cloud services.
- Collaborated directly with clients to gather technical requirements, define integration specifications, and deliver tailored solutions.
- Developed and maintained a reusable component library for integrations, building new components and improving existing ones to support scalability and maintainability.

Amazon Ring — Remote
Senior Software Engineer — Mar 2022 – Jul 2025

- **Led the development** of two admin panels as the principal front-end engineer, using **ReactJS, NextJS, VueJS, TypeScript, and TailwindCSS**.
- **Contributed to backend development** with **Go and Node.js**, optimizing communication between microservices and databases such as **DynamoDB and S3**.
- **Reduced the onboarding time** for a new Ring device from **40 hours to just 1 hour**, significantly improving efficiency and user experience.
- Collaborated on system architecture and performance optimization, working closely with DevOps and QA teams to ensure scalability and efficiency.
- Cost saving focused development.

Taller Technologies — Remote
Senior Software Engineer — Nov 2020 – Mar 2022

- Worked on PricewaterhouseCoopers (PwC) project.
- Mainly developing new components for Adobe Experience Manager (CMS).
- Migrating jQuery to ReactJS.

Globant — Tucumán, Argentina
Web UI (SSr) — Aug 2018 – Nov 2020

- Developed UI components and optimized performance for projects like DELL EMC, Rimac, Hallmark, Nissan, Minsetur, and International & Development Bank.
- Direct contact between QA, UI/UX Designers, Product owners, and business analysts.
- Mentor of several QA and junior devs.

- Agile Methodologies.

Leadership & Activities

- Mentor in Globant's Girls Programming System (2019-2020).
- Mentor of Devs, QA at Globant (2018-2020).
- Professor at Rolling School (React JS / Node JS) (2020-2021).
